3. Cut many pieces of black thread, each approximately three inches long.
4. Cut a piece of packing tape, approximately six inches long.
5. Lay the tape, sticky side up and place the painted craft stick, top down, in the center of the tape. There should be equal lengths of tape at each side of the Popsicle stick.
6. Stick the pieces of thread to the tape. These will look like the veins in the dragonfly's wings.
7. Cut another piece of packing tape, also six inches in length.
8. Sprinkle this piece of tape with glitter and lay it, sticky side down, on top of the first piece of tape.
9. Trim the tape into two wings on each side of the craft stick.

LITTLE CATERPILLAR

Little Caterpillar was tired of being a caterpillar. He was small and slow inching along the ground while his friends flew and hopped and ran. One day, he decided he wouldn't be a caterpillar any longer.

"From now on," he said, "I'm going to be a fly!"

He went to find his friend, **Little Fly**, to learn how to be a fly. He found her playing in a spider's web. Little caterpillar told her:

"A caterpillar's life is not for me! A Fly is what I'd rather be!"

"Can you teach me how to be a fly?" he asked.

"Not now, Little Caterpillar. Can't you see I'm stuck? I wasn't watching where I was flying and I flew right into this sticky web. It will take me all day to get loose."

"Maybe I can help," said Little Caterpillar. Very carefully, Little Caterpillar began chewing through the sticky web until at last Little Fly was free.

"Thank you very much!" said Little Fly.

"You're welcome," said Little Caterpillar. "Now will you teach me how to be a fly?"

"Oh, Little Caterpillar," said Little Fly, "If you were a fly, you wouldn't have been able to rescue me. I think you should stay a caterpillar."

Little Fly flew off, and Little Caterpillar thought some more.

"I know! I'll be a grasshopper! They can't fly, but they can still move faster than I can!" And off he went to find his friend **Little Grasshopper**. He found him playing in a tree. Little Caterpillar told him:

"A caterpillar's life is not for me! A grasshopper is what I'd rather be!"

"Can you teach me how to be a grasshopper?" he asked.

"Not now, Little Caterpillar. Can't you see I'm stuck? I wasn't watching where I was hopping and I Hopped right into this tall tree. I'm afraid of heights. I can hop up, but I can't hop down."

"Maybe I can help," said Little Caterpillar. Very carefully, Little Caterpillar climbed up the tree until Little Grasshopper could climb onto his back. Then very carefully, he climbed back down.

"Thank you very much!" said Little Grasshopper.

"You're welcome," said Little Caterpillar. "Now will you teach me how to be a grasshopper?"

"Oh, Little Caterpillar," said Little Grasshopper. "If you were a grasshopper, you wouldn't have been able to rescue me. I think you should stay a caterpillar."

Little Grasshopper hopped away and Little Caterpillar thought some more.

"I know! I'll be an ant! they can't fly, and they can't hop, but they can still move faster than I can!" And off he went to find his friend, **Little Ant**. He found her in a deep hole. When he saw her, he said:

"A caterpillar's life is not for me! An ant is what I'd rather be!"

"Can you teach me how to be an ant?" he asked.

"Not now, Little Caterpillar. Can't you see I'm stuck? I wasn't watching where I was walking and I fell right down this hole. It will take me all day to climb back up."

"Maybe I can help," said Little Caterpillar. Very carefully, Little Caterpillar held onto a tree branch with his back feet and lowered his body down the hole until Little Ant was able to hold on. Little Caterpillar pulled her out of the hole.

"Thank you very much!" said Little Ant.

"You're welcome," said Little Caterpillar. "Now will you teach me how to be an ant?"

"Oh, Little Caterpillar," said Little Ant. "If you were an ant, you wouldn't have been able to rescue me. I think you should stay a caterpillar."

Little Ant ran towards home and Little Caterpillar thought some more.

"Little Fly and Little Grasshopper and Little Ant all want me to stay a caterpillar," he thought. "If I were a fly, I might fly into a sticky web. If I were a grasshopper, I might hop into a tree. If I were an ant, I might fall into a hole. I may not be able to move quickly, but I always know where I'm going!"

Feeling better, Little Caterpillar started for home. And as he crawled, he said:

"A caterpillar's life is right for me. There's nothing else I'd rather be!"
